

Project Mockup 'Platypurse'

by Malte Grave, Tim Hesse, Marvin Kuhlmann

Descriptions of the websites and the different pages of Platypurse

Our website will be an online marketplace for the purchase and sale of platypus, called Platypurse. Although it is a platform for a rather specific and small group of people, we still believe in its necessity. Even people with this kind of rare pets need to buy or sell them somewhere.

With our website we will support desktop and mobile devices like smartphones and tablets. Due to technical development we will not support older browsers (e.g. Internet Explorer, Netscape Navigator) and browser versions.

On this site you will be able to search for platypus offers with different filters, buy them or even sell one yourself. If you are interested in an offer, you can write to the seller or buyer through a direct messaging system and make an agreement. Since there will be no online checkout system, it is advisable to search for offers near your location. Then you can easily pick up your platypus.

Now to the different pages and their functions:

Navbar

In the left corner of the always visible navigation bar we place our logo with an on-click event to return to the *front page*. Next to the logo there is a search bar to search the offers by text. On the right side of the navigation bar are the buttons to create an offer or to go to the *login page* or, if you are logged in, to your *profile page*.

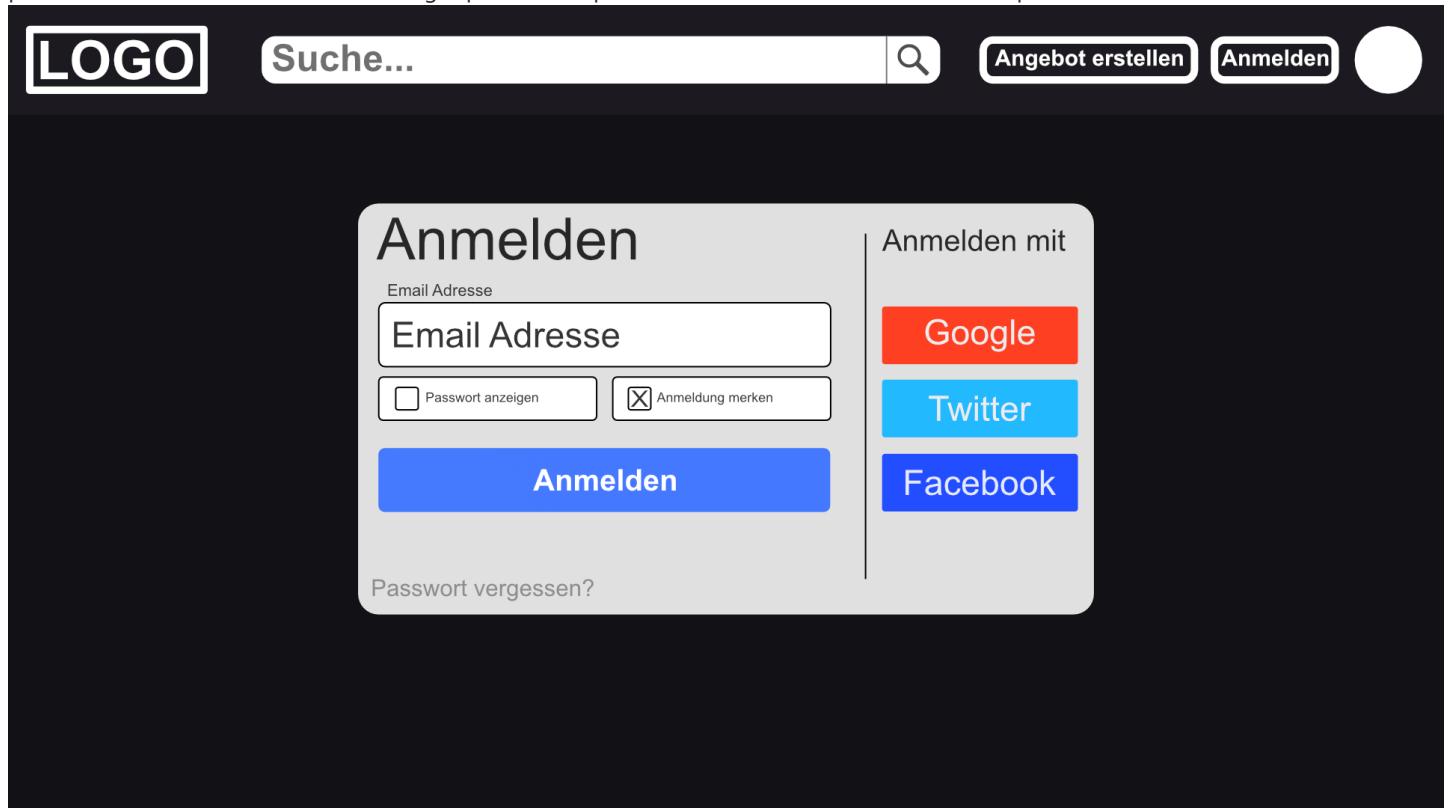

Front Page

The *front page* offers an easy way to explore the various offers. We show you the most visited offers of the last 24 hours and also the newest ones.

The mockup shows the front page of the Platypurse website. At the top, there is a dark header bar with a white 'LOGO' icon on the left, a search bar with the placeholder 'Suche...', and three buttons on the right: 'Angebot erstellen', 'Anmelden', and a circular profile picture. Below the header, a large image of a platypus's head and upper body is displayed. A red 'HOT OFFER' button is overlaid on the top left of the image. In the bottom left corner of the image, the price '37€' is shown. To the right of the image, there is a white callout box containing the text: 'Ultra süßes Schnabeltier', a description of the platypus ('Kleiner Boi, der Eier legt und hart chillt, ist ein Cooler Dude, aber leider kann ich den jetzt nicht mehr behalten. Vielleicht findet jemand ein neues Zuhause für ihn.'), and two bullet points: '- männlich' and '- 5 Jahre'. Below this, the text 'Dröflandsiebzig' and 'Aufrufe in den letzten 24H' is visible. At the bottom of the page, there is a section titled 'Neuste Angebote' featuring three smaller images of platypuses being held in hands, each with the text 'Smol Boi' below it.

Login Page

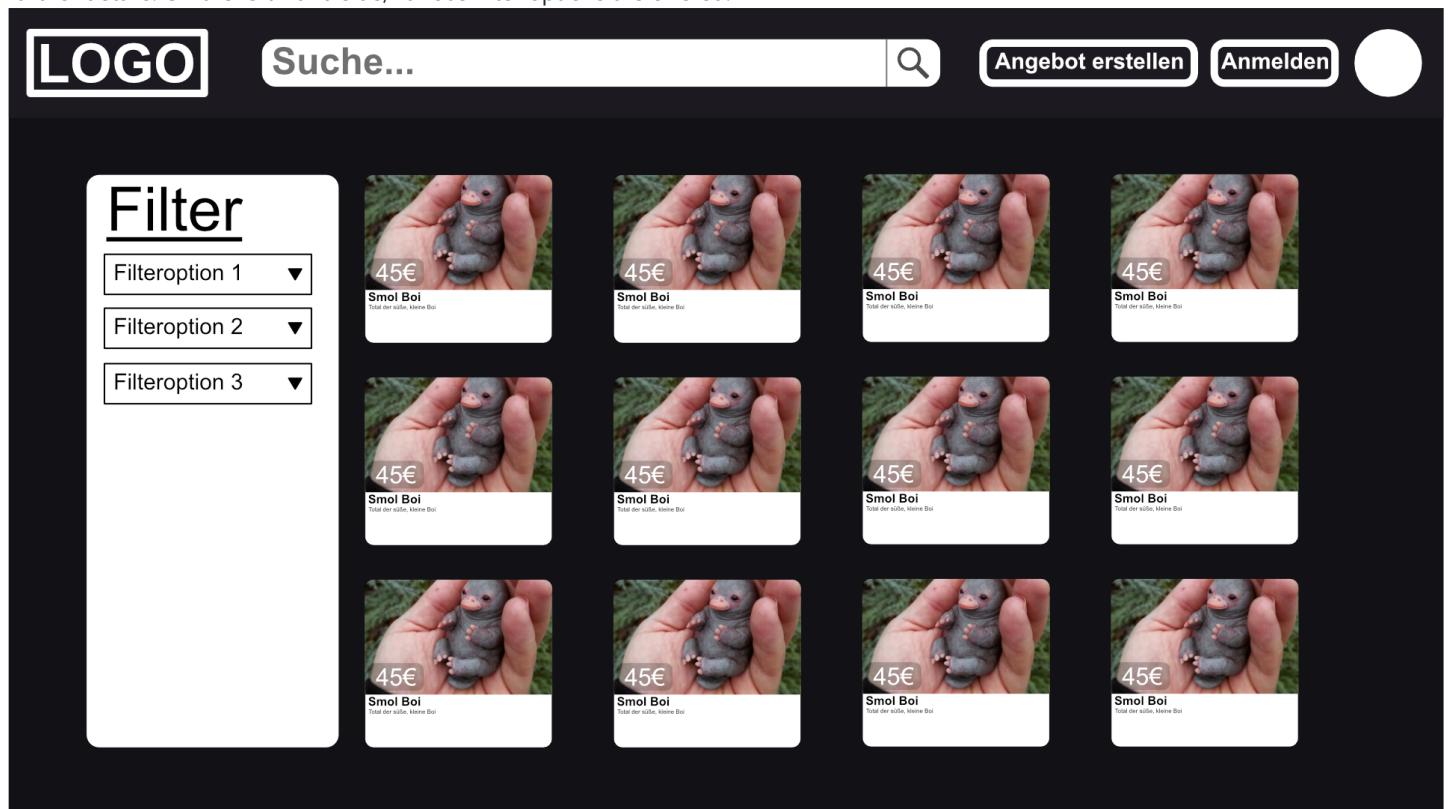

On the login page you can log in to your profile via your registered email address or via various services such as Facebook or Google. If no profile is registered with the mail you entered, you will be redirected to the registration form. Otherwise you will be asked for the profile password. You will also be offered a "Forgot password" option, which will send a reset link to the specified mail.

The login screen features a dark header with a logo, search bar, and user buttons. The main area is titled "Anmelden" and contains fields for "Email Adresse" and "Passwort anzeigen". It includes a "Anmelden" button and a "Passwort vergessen?" link. To the right, there's a sidebar for "Anmelden mit" (Log in with) showing options for Google, Twitter, and Facebook.

Search Results

The *search results* are displayed after the input from the search bar has been processed. The results will be displayed in a grid style with cards, which will mainly consist of the first offer screen and the price. After clicking on an item, you will be taken to the *offer page* for further details. On the left-hand side, various filter options are offered.

The search results screen shows a grid of 12 cards, each featuring a small image of a mole-like creature labeled "Smol Boi" and the price "45€". To the left, a "Filter" sidebar offers dropdown menus for "Filteroption 1", "Filteroption 2", and "Filteroption 3". The top navigation bar includes a logo, search bar, and user buttons.

Offer Page

If you are interested in an offer, you can view the details here. A picture gallery of the offer will be displayed and also additional information such as a description text, the categories for this offer, the location and of course the price. This allows you to contact the seller, view their reviews and go directly to their *profile page*. You can also report this offer or user.

You can also share this offer with your friends via a link or social media. If you are logged in, you can add it to your list of saved offers to watch this offer.

If you are the seller, you can change or delete the offer on this page. If you are the administrator, you can also delete this offer.

Zur Merkliste

Sleepy Boi
55€ VBA
Das ist ein sleepy Boi, den ich jetzt nicht mehr haben will, lol. Voll faul das Stück so

Create Offer

To create an offer, you can upload pictures for your platypus. Actually you can edit everything you see on the *offer page*. You can also use a checkbox to specify whether your price is a basis for negotiation or a fixed price.

Profile Page

The *profile page* describes the profile of a user. When you visit another user, you can view their rating, write them a message, or report or block them. If you are on your own *profile page* you will be able to see your list of Saved offers. You can also view and delete your offers. In addition, you can set your settings and language preferences on this page.

The screenshot shows a dark-themed user profile page. At the top left is a placeholder 'LOGO'. To its right is a search bar with the placeholder 'Suche...' and a magnifying glass icon. Further right are two buttons: 'Angebot erstellen' (Create offer) and 'Anmelden' (Log in). A circular profile picture placeholder is located at the top right.

The main content area features a title 'Nutzerangebote' (User offers) in large white font. Below it is a section titled 'Anzeigenname' (Display name) with a placeholder profile picture. To the right is a grid of nine items, each showing a small mole being held in a hand. Each item includes a price of '45€', the seller's name 'Smol Boi', and a short description: 'Total der süße, kleine Boi'.

Message Page

This page displays your open messaging topics. You can view your latest messages and the history of older conversations.

The screenshot shows a dark-themed messaging page. At the top left is a placeholder 'LOGO'. To its right is a search bar with the placeholder 'Suche...' and a magnifying glass icon. Further right are two buttons: 'Angebot erstellen' (Create offer) and 'Anmelden' (Log in). A circular profile picture placeholder is located at the top right.

The main content area features a title 'Messages' in large white font. On the left, there is a list of message threads, each with a placeholder profile picture, the recipient's display name, the date 'dd.mm.', and the text 'Last Message...'. The first thread has a red notification badge '(1)'.

On the right, there is a detailed view of a message conversation with 'Smol Boi'. The recipient's display name is 'Displayname' and the message content is 'Hey, ich fand dein Schnabeltier voll cute und so!'. Below this is a 'Send Message' input field with a backspace icon.

The admin panel provides a place for the administrators to manage users, view statistics, logs and errors or manage the database. For each user, the administrator can manage his roles, change his email and password and enable or disable that user. To manage the database we provide a text input field for SQL queries.
